

### MicroThermics Goes LIVE Always Innovating For You

MicroThermics is holding our first round of free webinars and you are invited! This is a 3-part series about UHT, HTST, and Aseptic R&D Processing. We will be covering the **Whys** and **Hows** of R&D processing for:

- Steam Injection UHT/Aseptic Processing of Plant Based and Dairy Products
- Indirect UHT/Aseptic Processing for Plant-Based and Dairy Products
- HTST/High Acid Aseptic processing of juices and beverages

Each webinar will be about 1 hour and include live demonstrations of the events, product and process, broadcast from our lab. We will add extra time for questions if needed. Come to 1, 2, or all 3! We cannot wait to see you! Space is limited, and we have had considerable interest, so sign up early!
